Education

University of California

Santa Cruz, CA, USA

PhD, Computer Science, GPA: 3.89/4.00

2010 – 2015

- Thesis topic: Understanding and Simulating Software Evolution
- Research areas: Software evolution, software repository mining
- Courses: *Information Retrieval, Machine Learning, Artificial Intelligence, Analysis of Algorithms, Mathematical Statistics*

Institute of Software, Chinese Academy of Sciences (ISCAS)

Beijing, China

MS, Computer Software and Theory, GPA: 87.9/100

2007 – 2010

- Research areas: software cost estimation, software bug prediction
- Courses: *Advanced Data Mining, Advanced Software Engineering*
- Honors and awards: *Outstanding Student* of 2009, available to top 15% graduate students

Xiamen University

Xiamen, China

BS, Software Engineering, GPA: 90.0/100

2003 – 2007

- Honors and Awards
 - *Distinguished Graduate* of 2007, available to top 3% graduates by GPA each year
 - *China Construction Bank Scholarship* of 2006 and 2007, available to top 5% by GPA undergraduate students each year
 - *Xiamen University First-Rank Scholarship* of 2004 and 2005, available to top 5% by GPA undergraduate students each year

Programming Languages

Python, R, Java, JavaScript, Ruby

Experience

Software Development.....

Uber Technologies

Seattle, WA, USA

Software Engineer

2017–present

Microsoft Corporation

Redmond, WA, USA

Software Engineer

2015–2017

Building statistical models for the Windows build system, in order to detect abnormal processes, identify factors affecting build time, provide estimates for build time, and propose measures for Windows build performance at different granularity

University of California
Graduate Student Researcher
Projects:

Santa Cruz, CA, USA
2010 – 2015

- Worked on CHEKOFV project, funded by DARPA's CSFV program, that tried to build games for crowd sourced formal verification. In the first game, *Xylem*, I worked as the main backend (Node.js and Express) developer and one of key developers of the game client (ActionScript 3). In the second game, *Binary Fission*, I worked as the main backend (Python and Flask) developer.
- Worked on a NASA funded project *Understanding the Design Space of Mixed Initiative Robot Design Tools*, developed the prototype, *Botprint* in JavaScript. It used Raphael.js to sketch the robot chassis in 2D, and Three.js to render it in 3D.
- Worked on a NSF funded project on bug prediction. Extended the open source project *CVSAnalY* to identify commits that introduce buggy code chunks.

Microsoft Corporation
SDET Intern

Redmond, WA, USA
2014

Built machine learning models to predict Windows build time and analyzed factors are most likely to cause build breaks

Google Inc.

Mountain View, CA, USA
2013

Software Engineering Intern

Developed a JavaScript fuzzer that generates random JavaScript to test Closure Compiler.

Hoolai Social Game Ltd

Beijing, China
2008 – 2009

Part-time Software Engineer, Database Administrator, System Administrator

- Developed several social network games using Ruby On Rails and Adobe Flex, one of which had more than 600 thousand Daily Active Users at its peak
- Setting up and maintaining a web infrastructure comprised of an Nginx/lighttpd server as load balancer, and several Nginx/lighttpd servers with several Phusion Passenger processes on each server to process more than 10 million HTTP requests every day
- Configuration and optimization of the MySQL and Memcached servers

Xiamen Shepherd Co., Ltd
Intern

Xiamen, China
2007

Used ROR and adopted Extreme Programming practices to develop several projects, including a Agile development management system AgilePlanner and an on-line music composition website ComposeItYourself.

Academic Services.....

The 14th International Conference on Mining Software Repositories (MSR 2017)

PC Member 2017

Information and Software Technology

Reviewer 2014 – 2015

Reviewed manuscript No. INFSOFF-D-14-00238 and INFSOFF-D-14-00238R1

The 11th Working Conference on Mining Software Repositories (MSR 2014)

Reviewer 2014

Reviewed Submission #10 and #19

The 35th International Conference on Software Engineering (ICSE 2013)

San Francisco, CA
2013

Student Volunteer

The 9th Working Conference on Mining Software Repositories (MSR 2012)

Reviewer 2012

Reviewed Submission #46 and #55

The 25th IEEE International Conference on Software Maintenance

Subreviewer 2009

Reviewed Submission #157

Teaching.....

University of California

Santa Cruz, CA, USA

Teaching Assistant

2011

Courses: *Machine Learning and Data Mining*, *Introduction to Database Management Systems*, and *Introduction to Computer Science*
